Q1: Write an essay on 'Online Education'.

10M

Education is most important aspect of life. Without education life is useless. Education leads to overall development of person, society and Nation. Education makes person empowered.

Online Education has useful as well as harmful effects too. Online education helps every person to study from their comfort at home and at time when they are comfortable. Many people work to meet their ends at day time therefore they were deprived of Education. Due to online education such people could do their work to feed their family as well as educate and empower themselves. Online education is not only useful for students but teachers, Researchers, etc. Teachers could spread their knowledge to each and every student or person at every part of the world. Online education has made access to education and quality education to rich and poor people. Online education has helped each and person or student to study during tough situation such as recent Pandemic. Due to online education students could continue their education. Online education was started way more early than we know. But online education was boomed a lot during pandemic.

Online education has some harmful effects as well. Due to online education screen time was increased and this caused strain on eyes and health of students. Online education exposed students to lot more harmful website and games which affected their concentration and mind. Online education requires data packs and good network region which cannot be accessed by everyone. Online education made students and children lose their imagination and thinking capacity as they provide answers to each and every question and students copy the same without a second thought. In offline education the guidance and mentorship of teacher is present, which is not available in Online education.

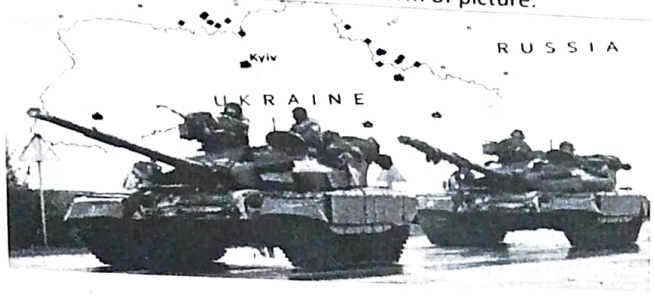

Online education is very controversial topic whether it is useful or harmful. But both the education mode are important in itself. Online education helps students who can't access online study, but cannot take place or overshadow importance of Offline education. The knowledge the books and reading book gives is uncomparable. Book develops overall mind and imagination capacity. Thus both the mode online and offline is important.

Thank you!

Q2. Write an essay on the topic given in the form of picture.

We all have seen wars and heard about its destructive effects on human beings, Animals, Environment and Ecology. It not only effects the current generation but also the coming generation in the form of genetic mutation.

War leads to social and economical strain on countries. It not only affect the countries Involved in war but the whole world. It brings economic strains on country and also cause death of soldiers, civilians and other creatures. War leads to severe harmful effects on environment. Nuclear weapons cause harmful radiation pollution which not only affect the current generation but also the coming generation due to genetic mutation which cause the new born to born without eyes, hairs, hands, legs and other body parts and organs. The death of soldiers, civilians cause problems in many families. The war causes stress between nations. The war leads affected poor countries to go backwards in terms of development and technology. It takes time and lot of money to get the country condition back as before war. War leads to harmful effects such as death, injuries to helpless and voiceless animals who can't help themselves and treat themselves. War as uncountable harmful effects.

As an Indian we do not encourage the War, as we are peaceful country who believes in non-violence and follow principles such as Ahimsa. War are not the only option to solve any matter or conquer everything. Things can be done by peaceful talk and mutual understandings. War are the worst decision to take, when things can be done peacefully. The war between Ubrain and Russian has caused many destructive effects to the whole world. The two country must talk and decide the alternative and stop war for the betterment of Human kind.

Say No To Wars.

Thank you!

A) Title : China-India Relation.

(10 Marks)

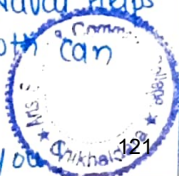

China - India Relation

Today's Reality and the hardest truth is that we know our country and judge it on the basis of dressing of people, its generation of Technology, and how the people live in that country.

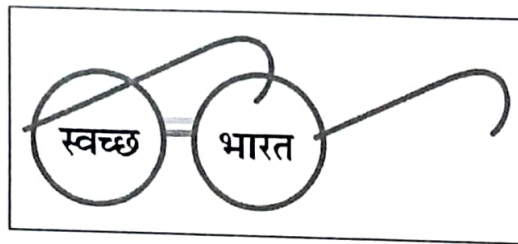

Friends, the first most populated country in the world is China, and the second most populated country in the world is India. Is there any kind of relation in between these countries? Yup, Both countries share the maximum technologies and both the countries have maximum profit from it. Some items from China like Mobile phones, electronics and other contents are imported in India on large scale. India exports all possible beverages like Dal's, wheat to China. So friends what is need in our relation in the relation of both countries? We need peace, we need understanding but on what condition? Today we thought that

China is causing harm to our country's system, why? Because the Media, and Reporters shows us that but friends its actually a Truth? Who knows? "It is the sad Truth that we believe on what we want to listen". We fought on so many Topics such as Dokhalam cases, Bhramputra Dam matters, BSF attacks, Border people security, Financial development from importing items from China and that's enough to know the present relation. But if you ask me, I would advised that don't break the wire between both the countries as till possible. But, Both the countries have its own pre-developed system and there is only a need of thinking about our future development from day to day increasing Technologies such as Bullet trains, Helicopters, ordinance sector such as fighter planes and Naval Helps. Both the countries in development and Definatly we both can reach to the Mars if together, please join it again by heart.

- Thank you

स्वच्छ भारत - स्वस्थ भारत - एक कदम स्वच्छता कि ओर !

“स्वच्छ भारत का श्वादा कर लिया हमने, देश से अपने यह वादा कर लिया हमने।”

“दोस्तो आज हमारा भारत मंगल ग्रह तक पहुँच चुका है, ना किसी और देश ने हमारी इसमें मदत कि, ना हमें किसी विदेशी सहकार्य की मदत आवश्यक हुई। तो फिर, क्या जरूरत हो हमें किसी के मदत कि हमारे देश को स्वच्छ बनाने में, क्या हम यह काम अकेले नहीं कर सकते? आज यह खाल एक ६८ वर्षों के मंत्रिनेहमारे सामने रखा है।”

वर्ष २०१४ में शुरू हुई “स्वच्छ भारत - स्वस्थ भारत” मोहीम आज हमारे देश में इस तरह दौड रही है जितनी जरूरत लहु की हमारे शरीर को हो, इसके कामीयाबी में दोस्तो शीफ, हमारे मंत्रियों का ही नहीं बल्की, हमारे देश के जनता का भी बलोट बज हात रहा और रोज मर्ज के जीदंगी में भी इसका प्रतीशाद बड़ रहा है। हमें जरूरत है तो शीफ एक सोच की, उस जागरूकता की जो हमें मजबूर कर दे यह सोचने पर के मुझे अपना देश स्वस्थ और सुंदर बनाना है। उनना ही दोस्तो हमारे देश के मा. प्रधानमंत्री नरेद्र मोदी के स्वप्न २०२० की सफलताभी पूर्ण होगी जफ़ देश की सारी जनता साथ होगी, सहयोगी होगी।

आज कई उपक्रम भारत में स्वच्छता कि दिशा में जा रहे है, बस हमें जरूरत है उस दिशा में आगे बढ़ने की, और “सबका साथ - सबका विकास” यही तो हमारे देश कि सफलता का मुलमंत्र है, क्या ना हम भी यह प्रण ले, पाहे जो भी हो मुझे अपना करतव्य निभाना है, मुझे, अपने देश को आगे बढाना है, मुझे, अपना देश सुंदर बनाना है, क्योंकि देश कि स्वच्छता हमारे भारत माता के सर कि बिंदी के समान है दोस्तो - धन्यवाद!
