**Deployment of Strategic Plan**  
**(2020-21)**

The implementation of strategic plan is monitored time to time by Principal, IQAC, College Development Committee (CDC) and other committees through periodic review. We have constantly evolving measurable for monitoring and review process. The concerned heads prepare the detailed progress report and present it in the review meetings. The benchmarking of quality standards and its monitoring, evaluation of attainment is carried out by the IQAC independently. The IQAC reports the findings to the CDC. With thorough analysis of outcomes and based on IQAC report, CDC recommends the corrective actions, need of further processes and deployment of resources. All these reports are forwarded for further discussions and implementation through the Principal.

We successfully carried out the strategic plan with the ever evolving mechanism of the college with concerned departments, committees, cells, etc. Desired outcomes needs continuous evolution to incorporate the lessons learnt during the implementation and emphasizes the role of IQAC in ensuring the quality of implementation.

One activity successfully implemented based on the strategic plan is described below.

**Title of the Activity:** Awareness and Counseling in higher education

Adhering to our goals and mission we have constituted "Admission Committee", which run admission and counselling drive, visiting interior parts of Melghat. The committee consists of teaching and non-teaching staff of the college. The groups are formed and allotted particular areas to visit frequently. The reports are collected and analyzed for necessary action. Melghat being under privileged and suffering from various socio-economic problems, education can play a vital role in addressing and solving most of the problems. We feel it our responsibility to create awareness about higher education among the tribal and other backward people. We try to meet all eligible students and dropouts through visiting the junior colleges in nearby areas. We meet the students, teachers and their parents. We suggest them to tap a specific programme. We arrange a gathering of eligible students with their friends, relatives and family members and address them. We come to know the various problems pertaining to them like poverty, lack of proper mind set, superstitions, lack of awareness, their inevitable involvement in earning daily bread and butter etc.
