Date of program : 07 SEPTEMBER 2022
Objective of program :

To mark the day of 'Adyaktantivir Umaji Naik Jayanti"

Number of beneficiaries : College Students and staff

Brief summary of the program :

Adyaktantivir Umaji Naik (7 September 1791 – 3 February 1832) was an Indian revolutionary who challenged the British rule in India around 1826 to 1832. He fought against East India company and company rule. Soon after the fall of Maratha Empire, Naik raised a tiny army against the British. In the sacred yagya of India's freedom struggle, many patriots sacrificed their life, some of them are remembered whilst many are forgotten. Umaji Naik is one such unknown hero.

In the college premises of ASCC, Chikhaldara his birth anniversary celebrated with great enthusiasm. Objective to observe this program was to mark the day.

At the outset, Dr. V. R. Patil, Garlanded & worshiped the image of Adyaktantivir Umaji Naik. Dr. P. G. Gawande, gave information in brief about the life history of Adyaktantivir Umaji Naik to the Students. Teaching and non teaching staff was present on this occasion. Dr. P.G. Extension Activity

Academic Year- 2021-22

Title of the Activity: Plastic Free Environment

Date / period: 13th May 2022

Venue: Seminar hall

Objectives of program: To aware about polythene plastic bag pollution.

Making our environment an eco-friendly zone.

Brief Report: Plastics do not undergo degradation, stay in the soil for many years, which affects soil fertility and degrades the soil quality. When plastic enter the drainage and sewerage system, they block the pipes and the drains causing waterlogging. The improperly disposed of food bags, when eaten by animals, cause stomach and intestine related diseases which even lead to suffocation and death. Plastic items find their way to the river and other water bodies, which are then swallowed by fish, seabirds, and other marine species. The waste from the plastic manufacturing industry is thrown directly into the water bodies, thus affecting the chemical property of water, causing hazards on a very large scale. Proper disposal and usage of plastic discards can reduce these problems. A set of regulations should necessarily be followed to stop these problems. There are primarily three ways of managing plastics: • Reduce • Reuse • Recycle

In the academic session 2021-22 Department organized Extension Activity, in which we aware our students about plastic pollution and asked them about reuse of plastic bottles for planting the plant. The duration of this activity was three months. Students planted the sapling in plastic bottle, observe them by taking care and after grown they submitted it on the date they asked.

The program conducted on 13th May 2022 under the presidency of Honble Principal Dr. R. S. Jaipurkar. Dr. U. S. Wasnik in her speech gave brief introduction about the Extension activity of the department. Dr. R. S. Jaipurkar sir addressed the students and insist students to avoid use of single use plastic. The program ended by vote of thanks.
