We run colleges in hilly and tribal area. Most of the students are from very poor economic backgrounds. Many students leave their studies midway due to financial problems. EDIIL Cell is working in the field of self-employment. Through the EDIIL Cell, we provide them with an opportunity for the better future. We have planned commercial types of handicrafts. We have provided all the facilities and kits through which the students can make bamboo articles. These handicrafts are sold through Various outlets. This will give some financial help to the students and they can earn while learn. EDIIL Cell in association with Sampurna Bamboo Kendr, Lavada, Distt. Amaravati.(an NGO working in this area for tribal) and department of commerce, ASCC, Chikhaldara arrange training workshop on 'Bamboo Craft Manufacturing'. The training workshop is organized under the theme "Earn while learn". 'Earn while learn' is the motive behind the sale. many students Due to financial problems, are unable to concentrate on studies. This type of cell will help the students to continue their higher education with full strength. The students are taught to use various tools fluently and try making different bamboo articles.

Entrepreneurship Development Cell in collaboration with Sampurna Bamboo Kendra, Lawada, Distt. Amravati (A NGO working in this field for Tribal) and Department of Commerce, ASCC had arranged ten day "Add on Course 'Rakhi Making & Bamboo Handicraft'" from 10-04-2023 to 19-04-2023. This training workshop was organized under the theme of "Earn While Learn". Mr. Shivcharan Kottewar, Convener of EDIIL Cell, all the members of Cell, Mr. Ganesh Kanase, Sampurna Bamboo Kendra, Lawada, the persons from Kendra and especially Mr. Kshitij Shah, Dept. of Food Science, worked hard for the success of this training workshop.

The trainers from Sampurna Bamboo Kendra Mr. Lokesh Bhandhiya started the workshop. The bamboo pieces, all the require instruments were brought with the help of Kendra. Every day the participants were trained by the instructors from 11.00 am to 5.00 pm. Each day of training was used to start and end with the prayer of motivation. The students learned to use the various instruments fluently and create many crafts from bamboo. During the 10 days of training the students.

OUTPUT OF THE WORKSHOP:

- It was a good interactive workshop
- Students came to know the opportunities and prospects of learning the bamboo craft making
- They came to know about the demand of such crafts in the market
- They learn to use various instruments required for the craft making, and manufactured various beautiful crafts
- Students got the satisfaction and happiness of making something new
- Many students said that they will use this knowledge and will make use for the self employment

NEED OF SUCH TYPES OF WORKSHOPS

As we run the college in hilly and tribal area, pursuing a degree is not enough. Maximum students are from very poor economical background. Many students leave their education in middle due to economic problems.

Entrepreneurship Development & Industry Institute linkage Cell is working in the field of self employment. Such types of workshop can provide an opportunity to the student for their better future. EDIIL cell is planning for the commercial production of these types of lamps. We will provide all the facilities and kits to the students and they will manufacture the lamps. These lamps will be purchased by the cell and will be sold through its outlets. This will provide some financial help to the students and they can earn while learn
